PROFESSIONAL SUMMARY

Entry-level Data Analyst / BI Analyst candidate and Computer Science undergraduate at VIT-AP University, also pursuing IIT Madras's BS in Data Science and Management. Built NovaCart and BitePulse analytics projects using SQL, Python, PostgreSQL, Power BI, and DAX, analyzing 104K+ synthetic sales records and 1.6M+ synthetic product events through ETL, data modeling, funnel analysis, cohort retention, and customer segmentation. Microsoft-certified Power BI, Fabric Analytics and Azure Data Fundamentals professional, with Google Data Practitioner certification; currently pursuing the Google Data Analytics Professional Certificate.

EDUCATION

VIT-AP University *2023–2027 (Expected)*
B.Tech. in Computer Science and Engineering (Core) *Amaravati, Andhra Pradesh*

Indian Institute of Technology Madras *2026–Present*
BS in Data Science and Management – Foundational Level *Class XII: 78% | Class X: 95%*

TECHNICAL SKILLS

Programming: Python, SQL
Python Libraries: Pandas, NumPy, Matplotlib
Data Analytics: Data Cleaning, Exploratory Data Analysis (EDA), KPI Reporting, Funnel Analysis, Conversion Rate Analysis, Cohort Retention, RFM (Recency, Frequency, Monetary) Segmentation, Customer Segmentation, Pareto Analysis, Microsoft Excel, Statistics
BI & Visualization: Power BI, DAX, Power Query, Semantic Modeling, Dashboard Development, Data Visualization
Databases & Data Engineering: PostgreSQL, ETL Pipelines, Data Transformation, Star Schema, Data Modeling, Dimensional Modeling, Data Warehousing, Data Validation, Analytical Views, Microsoft Fabric
Tools: Git, GitHub **Other:** FastAPI, React, Firebase

PROJECTS

NovaCart – E-Commerce Sales & Customer Analytics Platform
Python, Pandas, PostgreSQL, Power BI, DAX

- Built a Python/Pandas ETL pipeline loading 104,852 cleaned synthetic sales records into an 8-table PostgreSQL star schema; passed 19/19 validation tests with zero reconciliation difference.
- Developed a 6-page Power BI report with 30+ DAX measures covering executive KPIs, profitability, customer intelligence, regional operations, retention, and RFM analysis.
- Analyzed 54,854 realized orders across 5,000 customers, reporting INR 847.6M realized revenue, 30.93% margin, 5.57% return rate, and 82.1% active-customer repeat rate.
- Applied RFM segmentation, cohort retention, and Pareto analysis to assess customer value, retention behavior, and product concentration.

BitePulse – Food Delivery Product Analytics Warehouse
Python, SQL, PostgreSQL, Power BI, DAX

- Designed an 8-table PostgreSQL warehouse with 1.6M+ synthetic records, including 1.24M clickstream events, 180K sessions, and 50K orders; built 8 ETL pipelines and 10 analytical views.
- Wrote 26 SQL queries analyzing a seven-stage funnel, measuring 27.78% session-to-order conversion, 85.39% checkout conversion, and 91.03% fulfillment.
- Analyzed 12 monthly cohorts and 12,494 transacting users, measuring 68.90% repeat ordering, INR 670.60 average delivered order value, and a 19.91% effective take rate.
- Built a 6-page Power BI report with an 11-table semantic model, 13 active relationships, and 66 DAX measures.

DIRS – Disaster Intelligence & Response System
Python, FastAPI, PostGIS, PuLP, Google OR-Tools

- Led a 4-member capstone team building a role-based disaster-response platform for government, citizen, volunteer, and NGO users, with 56 REST handlers across 13 FastAPI routers and real-time WebSocket updates.
- Applied PuLP linear programming, Google OR-Tools vehicle routing, and PostGIS spatial indexing across 11 what-if crisis scenarios; measured proximity queries under 15 ms and API P95 latency under 45 ms.

WardrobeWhiz – Wardrobe Recommendation Web App
React, Node.js, Express.js, Firebase

- Built and deployed a full-stack web app on Vercel and Render with 6 REST endpoints and 7 rule-based styling checks for occasion matching, color harmony, layering, and wardrobe gaps; 4/4 automated tests passed.

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300) *Oct 2026*
Microsoft Certified: Fabric Analytics Engineer Associate (DP-600) *Oct 2026*
Microsoft Certified: Azure Data Fundamentals (DP-900) *Oct 2026*
Google Data Practitioner Associate *Oct 2026*
Google Data Analytics Professional Certificate *In progress*

ACHIEVEMENTS

Top 10 – VIT-AP Engineering Clinics Expo 2025–26: SafeMine Pro Helmet project selected among approximately 1,008 teams.
